

# *After the Needs Assessment: CAH Community Benefit Strategies*

---

John Gale

Maine Rural Health Research Center

2012 Critical Access Hospital Meeting

Kansas City, MO

September 28, 2012

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex** | University of Minnesota  
**Monitoring** | University of North Carolina at Chapel Hill  
**Team** | University of Southern Maine

## *Overview of Today's Session*

---

- Review the IRS community health needs assessments (CHNA) requirements including the required strategy plan
- Disconnect between IRS CHNA guidelines and the IRS community benefit reporting requirements (Form 990)
- Understanding the strategy plan as a bridge from the CHNA to the hospital's community benefit strategy
- Strategy plan requirements
- Sample CAH interventions and strategies
- Resources

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

University of North Carolina at Chapel Hill  
University of Southern Maine

## *CHNA Is Part of a Larger Process*

## *HRET's Description of a Community Responsive Hospital*

- Look beyond delivery of medical care to role of hospital leadership in:
  - Community issues (e.g., substance abuse, domestic violence, etc.)
  - Health issues (e.g., oral health, mental health, obesity, etc.)
  - Equity (e.g., barriers to access or health status disparities among vulnerable populations)
  - System barriers (e.g., limited public health infrastructure, limited integration of providers and services, etc.)
  - Community's role in process (e.g., involve residents in addressing above issues, reducing risky behaviors, partnering with schools, etc.)

From: *Where Do We Go from Here? The Hospital Leader's Role in Community Engagement* (2007)  
by the Health Research and Educational Trust.

University of North Carolina at Chapel Hill  
University of Southern Maine

## *ACA Additions to Tax Code for Tax Exempt Hospitals*

---

- Sections 501(r)(3)
  - Community health needs assessments every 3 years
  - Effective for tax years beginning after March 2012
- Sections 501(r)(4-6)
  - Financial assistance and emergency care policies; limitations on patient charges; limits on billing and collection practices
  - Effective for tax years beginning after March 2011
- Must be viewed within the context of changes to Form 990 community benefit reporting requirements (Schedule H)

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Community Health Needs Assessment (CHNA)*

---

- CHNA must:
  - Be conducted not less than every three years
  - Adopt strategy to address needs identified through CHNA
  - Incorporate input from persons representing the broad interests of the community, including those with interest/expertise in public health
  - Be made widely available to the public
- As part of its Form 990 filing, hospital must describe:
  - Its CHNA process
  - How it is meeting identified needs through CHNA
  - Any needs that are not being addressed and why

University of Southern Maine

## *Status of IRS Guidelines*

---

- Notice 2011-52 details provisions that the Treasury Department/IRS anticipate will be in proposed regulations
  - Recognizes that hospitals may start CHNA prior to the effective date
- Hospitals can rely on the terms of Notice 2011-52 with respect to their CHNAs until further guidance is issued
- Applies to all 501(c)(3) hospitals
  - Includes government hospitals with dual status even though they do not currently file Form 990

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Key Issues Covered in 2011-52*

---

- Hospital organizations affected – multi-hospital facilities
- CHNA documentation – When/how to conduct CHNA
- Definition of community served
- Community input into process and plan
- Widely available to the public
- Implementation strategy - how/when to adopt strategy
- Excise taxes
- CHNA reporting requirements
- Effective date

## *Defining the Community Served*

---

- Hospital must describe the community it serves and how it was determined. Options:
  - Geographic location (i.e., city, county, or metropolitan region)
  - Target populations served (i.e., children, women, or the aged)
  - Principal functions (i.e., specialty area or targeted disease)
- May not be defined in a manner to exclude:
  - Medically underserved populations, low-income persons, minority groups, or chronic disease needs
- Can use billing/patient records to identify areas where the majority of the hospital's patients come from
- Key is to be reasonable in defining service area

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Six Parts of Schedule H*

---

- I. Charity care and certain other community benefits
- II. Community building activities
- III. Bad debt, Medicare, and collection practices
- IV. Management companies and joint ventures
- V. Facility Information
- VI. Supplemental information

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## Community Benefit

---

- Programs or activities that provide treatment and/or promote health in response to an identified community need. Key criteria:
  - Generates a low or negative margin;
  - Responds to needs of special populations (e.g., uninsured);
  - Supplies a service/program that would likely be discontinued if based on financial criteria;
  - Responds to public health needs; or
  - Involves education or research that improves overall community health.

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Community Benefits Arising from Patient Care*

---

- **Charity care**
  - Free or discounted services provided to persons who cannot afford to pay and meet criteria for financial assistance.
- **Bad debt**
  - Uncollectible charges from persons that have failed to pay.
- **Government-Sponsored Health Care**
  - Unpaid costs of care provided to Medicaid, SCHIP, local or state public or indigent care programs, and Medicare beneficiaries.

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Community Benefit: Programs and Activities*

---

- Community Benefit Services categories:
  - Community Health Improvement Services
  - Health Professions Education
  - Subsidized Health Services
  - Research
  - Financial and In-Kind Contributions
  - Community-Building Activities
  - Community Benefit Operations

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Community Health Improvement Services*

---

- Community health education
  - Lectures, presentations, support groups, self-programs that are open to the publics
- Community-based clinical services
  - Screenings, one-time or occasionally held clinics, health fairs, free clinics, mobile units
- Health care support services; and
  - Enrollment assistance in public programs, information and referral, transportation for vulnerable patient to/from community resources

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Health Professions Education*

---

- Physicians/medical students, nurses/nursing students; other health professions
  - Internships and residencies
  - Job shadowing and mentoring projects
  - Scholarships/funding for professional education (for community residents not only hospital staff)
- In-service programs available to all professionals in the community (not just hospital staff)

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Subsidized Health Services*

---

- Services provided to the community that are not expected to be self sustaining
  - Emergency and trauma care services
  - Hospital outpatient services
  - Women's and children's services
  - Renal dialysis services
  - Subsidized continuing care
  - Behavioral health services
  - Outpatient palliative care

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Research*

---

- Clinical research; and
  - Unreimbursed/unfunded costs of studies on therapeutic protocol
- Community health research.
  - Studies on health issues for vulnerable populations
  - Research studies on innovative health care delivery models

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Financial and In-Kind Contributions*

---

- Cash donations; grants; in-kind donations; and cost of fund-raising for community programs
  - Contributions and/or matching funds to not-for-profit organizations
  - Event sponsorship (less cost of benefits received)
  - Meeting space for not-for-profit organizations and groups
  - Services of hospital grant writer to assist local health agencies

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Community-Building Activities*

---

- Physical and environmental improvements
  - Community vegetable gardens or walking trails
- Support system and workforce enhancement
  - Recruitment of providers for medically underserved areas
- Leadership development for community members
  - Advocacy training for community members
- Coalition building
  - Disaster preparedness committees
- Community health improvement advocacy
  -

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Implementation Strategy*

---

- As part of its CHNA process, a hospital is expected to develop a written implementation strategy describing how it plans to meet each of the health needs identified through the CHNA
- The hospital is required to attach a copy of the most recently adopted implementation strategy to its annual Form 990
- For multi-hospital organizations, each hospital must meet this requirement separately
- The written plan must describe:
  - How the hospital plans to meet identified needs, or
  - Identify the health needs that the hospital does not intend to meet and explain why it does not intend to meet it

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Details of Implementation Strategy*

---

- Describe how the hospital plans to meet each health need that it intends to address
  - Identify programs and resources used to meet the health need
  - Describe anticipated impact of the commitment of programs/resources
  - Describe any planned collaboration with other organizations (related organizations, other hospitals, nonprofit organizations, state and local agencies, etc.) – All organizations must be specifically identified
- Each hospital must adopt its implementation strategy by the last day of the first tax year beginning after March 23, 2012
  - Strategy must be adopted in same tax year as the CHNA was conducted
  - Strategy is considered adopted when it is approved by the governing body of the hospital

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Linking the CHNA and Form 990: Implementation Strategy*

- IRS guidance doesn't explicitly link CHNAs to Form 990 community benefit reporting requirement
- How does it all fit together?
  - **CHNA** – Posted on hospital website/internet and made widely available
  - **Implementation Strategy** – Submitted each year as part of each hospital's Form 990 filing
  - **IRS Form 990, Schedule H** – Hospital community benefit activity reported on Schedule H
- How might the IRS use this information?
  - Compare community benefits reported in Schedule H to the needs identified in CHNA and those addressed in the implementation strategy

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Recommendations*

---

- Focus strategy implementation plan on priority needs identified through CHNAs
- Review IRS/Catholic Health community benefit guidelines
- Align strategies with key community benefit activities
- Make sure the two reports are in sync
- Form 990 community benefit activities encompass activities not likely to appear in a CHNA
- Capture/report full range of allowable community benefits

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Community Benefit Operations*

---

- Senior staff to manage community benefit program
- Other dedicated staff
- Community health needs/health assets assessments
- Program evaluation
- Administrative resources
- Other resources and expenses

## *Justifying Chosen Strategies*

---

- How does a hospital support/defend its decisions to regarding the needs addressed in its strategy plan?
- **Implement a robust, transparent process to set priorities**
- Method(s) less critical than process
- Meaningful community engagement/involvement is critical
- Meaningful community collaboration
  - Public health system
  - Representatives from vulnerable populations
  - Key community stakeholders

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Why Justify*

---

- Leadership direction
- Limited resources
- Urgency
- Competing health issues to address
- Program effectiveness/efficacy
- Program efficiency
- Performance/quality improvement and project identification
- Supports/defends decisions

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Selecting a Method*

---

- How rigorously objective do you want the process to be?
- What level of participation/number of participants is ideal?
- Balance high participation / buy-in with manageability
- Maintain awareness of biases
- How time/energy-intensive a process will you commit to?

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Selecting a Method*

---

- “Dotmocracy” method (aka “Quick and colorful” approach)
- Nominal group planning
- Strategy map
- Simplex method
- Hanlon (PEARL) method
- Criteria weighting
- Prioritization matrix

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Key Considerations*

---

- Use priority-setting methods creatively
- Ordering priorities
- Logical
- Temporal
- Impact
- Consider barriers to implementation
- Use data from assessments wisely
- Use within the context of a planning process

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Summary Points for Priority Setting*

---

- Collect background data and documentation
- Clarify goals and objectives at outset
- Establish criteria for ‘judging’ potential options
- Determine participants for the prioritization process
- Select appropriate method
- Have needed materials for the prioritization method selected
- Implement process, follow-up and follow-through

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Center for Disease Control and Prevention Involvement*

---

- CDC's prevention branch has been engaged to provide guidance to the IRS in developing CHNA requirements
- CDC focus is on public health not hospital activities
- Heavy focus on collaboration – exceeds ACA requirements
- Strong emphasis on public health activities and evidence base
- Developing mapping and data tools for small hospitals
- Recruiting CAHs to “pilot test” tools
- Advisory group recruited to work with CDC includes rural hospital stakeholders

## *After the CHNA: Next Steps*

---

- Develop an implementation strategy
- Choose evidence-based strategies:
  - Centers for Disease Control and Prevention, Catholic Health Association, Public Health Institute, and St. Louis University School of Public Health are sources of evidence-based strategies
  - Critically evaluate existing “legacy” activities
- Develop ways to measure and communicate progress
  - Develop performance indicators tied to community priorities
  - Look for and use proven tactics to address priorities
  - Share information with community – A crucial step in building trust

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

Flex  
Monitoring  
Team

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Shift from Counting Activities to Addressing Community Needs*

---

- Many community benefit programs focus on counting dollars rather than the impact of activities and extent to which they address community needs
- Coming “full circle” to reconnect hospitals to their communities and **re-emphasize** their charitable mission
- Goal: move focus away from “random acts of kindness” to:
  - Community engagement
  - Collaboration between providers
  - Accountability to identified local needs
  - Focus on accessibility of services and prevention
  - Focus on population health issues

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Activities to Build Integrated and Sustainable Delivery Systems*

---

- Reach out to and enroll individuals into eligible programs
- Provide culturally competent medical homes
- Assure access to prevention and wellness services
- Address population health issues
- Provide access to affordable prescription drugs
- Assure access to specialty and hospital care
- Manage chronic care
- Coordinate comprehensive care
- Develop strategies to cover low-wage workers

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Potential Partners by Issue Area*

---

- **Community:** Schools, businesses/employers, elected officials, organizational trustees, faith community, media
- **Health:** Physicians, dentists, nurses, pharmacists, mental health specialists, community providers/agencies, insurers
- **Equity:** Community-based groups, activists, safety net providers, faith community, public health leaders
- **System barriers:** Health care and public health leaders, physicians, insurers
- **Community's role:** Patients/consumers, schools, service organizations, neighborhood associations, organizational trustees

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Examples of CAH Initiatives*

---

- **Regional Medical Center**
  - Developed a continuum of mental health services in three rural Iowa counties - currently re-organizing to provide behavioral health services through provider-based RHCs
- **Weiser Memorial Hospital's WACHAT Program**
  - Washington/Adams County Health Action Team provides primary care for uninsured individuals
  - Collaboration of 18 community organizations, social service agencies, and providers in Weiser, Council, and Cambridge.

## *Examples of CAH Initiatives*

---

- **Nor-Lea General Hospital**
  - Created the Heritage Program for Senior Adults in 2003 to provide outpatient mental health services to seniors
  - Staffed by psychiatrist, therapists, registered nurse, and MH technicians
- **Teton Medical Center' Wellness Program**
  - Collaborated with the high school, Teton Community Development Cooperative, County Extension Office, Great Falls Clinic, and others
  - Includes exercise programs, nutrition, health education, diabetes, stroke, and heart rehabilitation
  - Serves general community and has a special focus on health and fitness for high school students, firefighters, and persons with chronic illness

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities

**Flex  
Monitoring  
Team**

University of Minnesota  
University of North Carolina at Chapel Hill  
University of Southern Maine

## *Moving the Community Benefit Needle*

---

- Choose evidence-based strategies:
  - Centers for Disease Control and Prevention, Catholic Health Association, Public Health Institute, and St. Louis University School of Public Health are sources of evidence-based strategies
  - Critically evaluate existing “legacy” activities
- Develop ways to measure and communicate progress
  - Develop performance indicators tied to community priorities
  - Share information with community – A crucial step in building trust
- Focus on charity/discounted care policies to expand access
- Look carefully at bad debt levels to understand access issues

A Performance Monitoring Resource for  
Critical Access Hospitals, States, and Communities
